RECEIVED

OFFICE OF PETITIONS  
DEPUTY A/C PATENTS

The facts leading to this petition are as follows:

Siemens Aktiengesellschaft, by agreement obtained complete and exclusive proprietary interest in the invention.

The invention is considered sufficiently important to warrant application for patent and the non-filing of an application for patent would irreparably harm Siemens Aktiengesellschaft.

The inventor, Ulrik Riis Madsen, in the application currently cannot be reached to execute the declaration and the instant petition is necessary to preserve the rights of Siemens Aktiengesellschaft, and to prevent irreparable damage.

Mr. Worofka who is handling the file in Germany for Siemens Aktiengesellschaft has made several efforts to obtain the signature of the inventor Mr. Ulrik Riis Madsen. Enclosed are copies of several items of correspondence with regard to this matter, a copy of the returned envelope, addressed to Mr. Madsen in North Carolina, showing the return receipt postcard, and a certified translation of the letters in German. Also enclosed is a declaration signed by Mr. Worofka.

Re.: Ole Jagielski et al. - U.S. Patent Application

Application No. 09/811,879 - Filed: March 19, 2001

Dear Mr. Madsen:

Further to our letter of July 24, 2001, we are herewith sending you another copy of the declaration and the assignment. Please note that the delay in filing the required paperwork in the Patent Office accrues extension fees.

Therefore, we would greatly appreciate your cooperation in this matter. You may fax us the documents, since fax copies are acceptable. However, if it is indeed your intention not to sign, please let us know so that we may then file a suitable response in the Patent Office excusing your signature.

Very truly yours,

For the firm
